

THE CHANGEABLE WORD BAR SYSTEM

The Changeable Word Bar System is specially designed for areas where frequent changes in information are expected. It is an excellent signage solution for corporate parks, office complexes, universities, hospitals, and financial institutions. The system features a clever fastening mechanism that allows for quick and easy copy changes. You can easily remove the bar(s) that need to be updated without dismantling the entire sign.

The Changeable Word Bar System offers word bars in various heights, ranging from 2" to 12". It can be used with either Series 225 or 325 posts, and the word bars can be finished in one color or multiple colors as per your requirements. You can add up to ten word bars as needed.
